

STANDARD OPERATING PROCEDURE & EXECUTION MANUAL

Complete Role-by-Role Clickable Action Manual

The definitive, step-by-step visual guide to every feature, clickable button, form field, workflow state machine transition, and expected output in Agency OS.

PLATFORM

Agency OS Production 2.0

AUDIENCE

All Agency Staff & Clients

COVERAGE

100% Actions, Steps &
Outputs

Agency OS is an automated creative operations platform designed to eliminate dropped balls, unapproved edits, and chaotic communication. The entire system operates on a **deterministic State Machine**: content moves forward only when the required role executes their explicit clickable action.

1.1 System Roles, Responsibilities & Default Logins

All core staff accounts are pre-configured with the master credential key: `MLjxodYKYAHY86fT!aA9`.

ROLE	ACCOUNT EMAIL	PRIMARY SCREEN RESPONSIBILITY	ACCESS GROUP
Super Admin	<code>owner@agency.local</code>	Agency control, onboarding clients, full approvals override, settings, custom roles.	SUPER ADMIN
Admin	<code>admin@agency.local</code>	Client management, team workloads, secondary approvals, dispute resolution.	EXECUTIVE
Social Media Manager (SMM)	<code>smm@agency.local</code>	Content planning, internal reviews, client coordination, publishing, live metrics.	OPERATIONS
Script Writer	<code>writer@agency.local</code>	Writing Hooks, story beats, CTAs, captions, hashtags, and submitting for review.	CREATIVE
Video Editor	<code>editor@agency.local</code>	Reviewing raw footage, uploading cuts (V1, V2), attaching Drive URLs, resolving revisions.	PRODUCTION
Graphic Designer	<code>designer@agency.local</code>	Creating statics/carousels, uploading creative versions, submitting for review.	CREATIVE
Videographer	<code>shooter@agency.local</code>	Shoot logistics, location scouting, confirming schedules, uploading raw footage.	FIELD
Client Portal User	<code>client@mellohealth.local</code>	Reviewing & approving scripts, inspecting video cuts in Drive, viewing monthly reports.	CLIENT

1.2 The Master Content State Machine

PLANNING → SCRIPT_WRITING → INTERNAL_SCRIPT_REVIEW → CLIENT_SCRIPT_REVIEW →

READY_FOR_SHOOT_EDITING → INTERNAL_EDIT_REVIEW → CLIENT_REVIEW → FINAL_CLIENT_APPROVED →

READY_TO_PUBLISH → PUBLISHED → REPORTING

 **The Zero-Confusion Rule:** If a button is not visible on your screen, it means either: (1) it is not your turn in the workflow, (2) the required predecessor file (like a Drive link or Script) has not been saved yet, or (3) your role lacks permission for that stage.

The Super Admin holds supreme operational authority across clients, permissions, team assignments, and final publishing.

Action 2.1: Onboarding a New Client

Path: Left Sidebar → Clients (/clients) → Click Button + Add client

MODAL ACTION

Opens the "Onboard a new client" modal. Complete the following fields:

- **Client / Brand name:** e.g. Mello Health (Required).
- **Industry:** e.g. Health & Wellness (Required).
- **Brand accent color:** Pick or enter hex code (e.g. #0ea5e9). Used for tags and charts.
- **Monthly deliverables:** Short, Reels, Carousels quota (e.g. 12 Reels, 4 Carousels).
- **Google Drive folder URL:** Master root Drive folder where client assets live.
- **Approval Rules Toggles:**
 - Social Media Manager sign-off required (Checked)
 - Admin review required (Optional)
 - Super Admin sign-off required (Optional)
 - Client final approval required (Checked for client sign-off)
- **Primary client contact:** Contact Name & Login Email (e.g. client@mellohealth.local).

Click Action: Click the black button Add client .

Expected Output: The client is created, brand mark badge appears across workspace, root Google Drive folder is attached, and the client user portal account is activated with default password.

Action 2.2: Creating a Content Campaign Item

Path: Left Sidebar → Content (/content) → Click Button + New content

CREATION MODAL

SECTION	FIELD NAME	REQUIRED VALUE / DESCRIPTION
Basic Info	Client, Title, Pillar	Select Client, enter title (e.g. 3 Myths About Daily Hydration), Pillar (e.g. Education).
Channel	Platform & Format	Platform (Instagram, YouTube, LinkedIn, TikTok), Format (Reel, Carousel, Short).
Production	Shoot required	Checked: Routes through Videographer & Shoot plan. Unchecked: Routes straight from script to Video Editor / Graphic Designer.
Deadlines	Script, Shoot, Edit, Reviews	Target deadlines for Script, Shoot, Internal Review, Client Review, and Final Ready date.
Team	Assignees Dropdowns	Select: SMM (Aanya), Writer (Rohan), Editor (Arjun), Designer (Meera), Videographer (Dev).

Click Action: Click Create content plan .

Expected Output: Item receives unique system code (e.g. CNT-0035), initial status is set to PLANNING , and initial task is auto-assigned to Writer.

The Script Writer creates the narrative backbone. No video editing or shoot can occur until the script is written, reviewed, and approved.

Step-by-Step Writing & Submission Guide

Step 3.1: Locate Assigned Content

NAVIGATION

- 1. Sign in as `writer@agency.local`.
- 2. In the left sidebar, click **Tasks** to see `SCRIPT · [Content Title]` (Status: `T0_D0`), OR go to **Content** and click into the item card.

Step 3.2: Compose Script & Save Draft

DRAFTING FORM

Click on the horizontal tab: **Script** (between *Overview* and *Tasks*).

FIELD LABEL	WHAT TO TYPE	PURPOSE
The hook	"Stop drinking 8 glasses of water all at once. Here's why."	First 3 seconds scroll-stopping line.
Main script	Full narration beat-by-beat, visual cues, speaker dialogue.	The core video or copy content.
Call to action	"Save this post and share with your workout buddy."	Ending conversion prompt.
Caption	Instagram caption copy formatted with line breaks.	The final social post text.
Hashtags	<code>#MelloHealth #HydrationTips #Wellness</code>	Platform discovery tags.
Reference URLs	Research links or competitor video URLs (1 per line).	Creative references.

Click Action: Click the black button `Save draft`.

Output: Draft is safely persisted in the database. Status remains `SCRIPT_WRITING`. Team can review in-progress work without triggering false alerts.

Step 3.3: Submit Script for Review

CLICKABLE ACTION

- 1. Look at the **very top-right header** of the content detail page (next to the title).
- 2. Click the blue button: `Submit script for review ↗`.
- 3. In the popup modal, optionally type a handover comment (e.g. "Script ready for SMM review!").
- 4. Click `Submit script for review`.

Expected Output:

- Status transitions: `SCRIPT_WRITING` → `INTERNAL_SCRIPT_REVIEW`.
- Writer's task moves to `FOR_REVIEW`.
- SMM Review task is auto-generated for Aanya Sharma.
- Approvals menu on SMM sidebar immediately lights up with pulsing badge: **1!**

The Videographer manages on-set production when a content item has `requiresShoot: true`. This bridges the script and editing teams.

Step-by-Step Production Shoot Workflow

Step 4.1: Access & Edit Shoot Plan

SHOOT TAB

When the script is approved, status changes to `READY_FOR_SHOOT`.

1. Sign in as `shooter@agency.local` and open the content item.
2. Click on the **Shoot** tab. Fill out the on-set logistics form:
 - **Date & time:** Call time for camera and lighting.
 - **Location:** Studio, gym, client office, or outdoor set address.
 - **Orientation:** Portrait (9:16 for Reels/Shorts), Landscape (16:9), or Square (1:1).
 - **Estimated duration:** Production window in minutes (e.g. `120`).
 - **Shot list:** Detailed checklist of angles, close-ups, and b-roll.
 - **Props & People:** Talent, models, product bottles, microphones needed.

Click Action: Click Save shoot plan.

Step 4.2: Confirm Shoot Schedule

TOP HEADER ACTION

1. In the top-right header, click: Confirm shoot schedule ↗.
2. Confirm the modal submission.

Output: Status transitions to `SHOOT_SCHEDULED`. Notifications are broadcast to SMM and client team.

Step 4.3: Complete Shoot & Upload Raw Footage

DELIVERABLE HAND-OFF

After wrapping production on set:

1. Upload raw camera clips and audio files to the client's Google Drive folder.
2. In the top-right header of the content page, click: Complete shoot ↗.
3. In the modal popup, enter:
 - **Raw footage Drive URL:** `https://drive.google.com/drive/folders/...` (Mandatory)
 - **Notes:** e.g. "A-roll on Cam 1, high frame-rate b-roll on Cam 2."
4. Click Complete shoot.

Expected Output:

- Status transitions: `SHOOT_SCHEDULED` → `SHOOT_COMPLETED` → `EDITING`.
- Shoot task is marked `COMPLETED`.
- Raw footage link is auto-saved under the **Drive links** tab under category *Raw Footage*.
- Task `EDIT` • `[Title]` is auto-generated and assigned to the Video Editor (Arjun Patel)!

The Video Editor assembles the cut, audio, transitions, and on-screen text. In Agency OS, deliverables are managed through strict **immutable versioning**.

The Golden Rule of Version Submission

Mandatory 2-Step Hand-Off: You **CANNOT** click "Submit edit" without first uploading a version link. If you attempt to submit without a version, the system will block you with: *"Add a Google Drive version before submitting."*

Step-by-Step Editing & Version Cut Guide

Step 5.1: Accept Editing Task

TASKS SCREEN

1. Sign in as `editor@agency.local`.
2. Open **Tasks** in the sidebar. Click on `EDIT • [Content Title]`.
3. Click **Accept task** (moves status to `IN_PROGRESS`).
4. Review the **Script** tab for captions/audio, and the **Drive links** tab for raw footage.

Step 5.2: Part A — Attach Version Cut (V1)

VERSIONS TAB ACTION

1. On the content detail page, click the horizontal tab: **Versions**.
2. In the top-right corner of the Versions panel, click the button: `+ Add version`.
3. In the modal popup titled *"Add the next version"*, fill in:
 - **Google Drive URL:** Direct link to the exported video file (e.g. `https://drive.google.com/file/d/...`).
 - **What changed?:** Editor notes (e.g. *"Cut 1: High-energy pacing, animated captions, color graded."*).
4. Click the modal button: `Add version`.

Output: Version record **V1** is created with an `Internal` badge and an `Open version ↗` link.

Step 5.3: Part B — Hand Off to SMM Review

TOP HEADER ACTION

1. Look at the **top-right header bar** of the content page (next to the main title).
2. You will now see the blue button: `Submit edit for review ↗`.
3. Click it, enter an optional note for your SMM, and click `Submit edit for review`.

Expected Output:

- Status transitions: `EDITING` → `INTERNAL_EDIT_REVIEW`.
- Review stage is set to `SMM review`.
- Editor's task updates to `FOR_REVIEW`.
- SMM Approvals radar lights up with **1!**

The SMM is the operational command center. SMM conducts internal reviews, approves creative cuts, schedules posts, copies captions, marks posts published, and tracks metrics.

6.1 The Approvals Radar & Review Actions

Screen: Left Sidebar → Approvals (/approvals)

REVIEW HUB

Whenever an approval requires your action, the Approvals link in the sidebar displays an animated glowing pulse dot: `• 1`.

- Click **Approvals**. Filter by: *All reviews*, *Internal review*, or *Client review*.
- Click on the content card to open review mode.

Header Buttons: Making the Review Decision

DECISION ACTIONS

BUTTON	WHEN TO CLICK	SYSTEM OUTPUT
Request changes	If script needs rewrite or video cut has audio/graphic flaws. Type feedback & timestamp notes (e.g. <code>00:14 Fix logo</code>).	Creates an official Revision round. Status moves to <code>INTERNAL_CHANGES</code> . Assigned employee task resets to <code>CHANGES_REQUIRED</code> .
Approve	Work meets agency quality standards. Enter optional commendation note.	Moves script/edit to Client Review (or next internal tier). Version tag changes to Shared with client . Client is notified.

6.2 The Publishing Hub & Metrics Form

Screen: Left Sidebar → Publishing (/publishing)

PUBLISHING HUB

Once client approves, status becomes `FINAL_CLIENT_APPROVED`. Item appears under **Ready & scheduled**.

Step 1: Mark Ready to Publish:
Open the content item. In the top-right header, click **Mark ready to publish ↗**. Status becomes `READY_TO_PUBLISH`.

Step 2: Copy Caption & Assets:
Click the **Publishing** tab. Click the button **Copy caption & hashtags**. Pre-formatted copy is instantly copied to your clipboard. Click **Open in Drive ↗** to download the approved video cut.

Step 3: Publish to Platform & Record Live URL:
Upload the post live to Instagram/YouTube/LinkedIn. Return to Agency OS and click **Mark published ↗** in the top header.

- Published post URL:** Enter live post link (e.g. `https://www.instagram.com/reel/...`).
- External post ID:** Platform ID (optional).

Click **Mark published**. Status moves to `PUBLISHED !`

Step 4: Record Post Analytics ("How did it do?"):
Under the **Publishing** tab, the *Metrics Form* unlocks. Enter:
`Views`, `Likes`, `Comments`, `Shares`, `Saves`, `Reach`, `Impressions`, `Follower growth`.
Click **Save metrics**. Data flows instantly into Reports and Client Portals!

Clients enjoy a distraction-free portal designed solely for reviewing scripts, previewing video cuts, providing feedback, and viewing monthly performance reports.

Client Clickable Actions & Review Procedures

Action 7.1: Client Script Sign-Off

SCRIPT APPROVAL

When SMM approves the internal script, the client receives notification: *"Your script is ready for review"*.

1. Sign in with client credentials (e.g. `client@mellohealth.local`).
2. Click **Approvals** in the sidebar. The badge shows **1**.
3. Click into the content item. Read the script under the **Script** tab.
4. In the top-right header:
 - Click **Approve**: Script is locked. Production begins immediately.
 - Click **Request changes**: Type feedback. Sends script back to Writer.

Action 7.2: Client Video Version Cut Sign-Off

FINAL VIDEO APPROVAL

When the internal video review passes, status changes to `CLIENT_REVIEW`.

1. Under the **Versions** tab, the client sees `V1` with a link: **Open version** ↗.
2. Clicking this opens the Google Drive video player for full-resolution preview.
3. In the top-right header, click the black checkmark button: **Approve**.

Expected Output: Status moves to `FINAL_CLIENT_APPROVED`. Publishing record is locked with final video file and captions. SMM is alerted to schedule publishing.

Action 7.3: Viewing Performance Reports

REPORTS PORTAL

1. In the sidebar, click **Reports**.
2. The client can view agency-published performance summaries, key metrics, and download attached report PDFs or Google Drive presentations.

8. Studio Tools & Management

Agency OS provides cross-role utilities for calendar planning, asset storage, real-time messaging, and intelligence reporting.

8.1 Content Calendar ([/calendar](#))

FEATURE	WHERE TO CLICK	WHAT IT DOES
Month / Week View	Top-right view toggles	Switches between high-level monthly editorial grid and hourly weekly scheduling.
Google Calendar Styling	Light / Dark mode toggle in top bar	Renders clean matrix grid lines with high-contrast text and event chips.
Content Quick-Open	Click on any calendar pill	Opens the full content detail workspace for that post.
Filters	Client & Platform dropdowns	Isolates calendar view to a single client or platform (e.g. only Instagram).

8.2 Drive Assets Hub ([/drive](#))

Every file in Agency OS lives securely in Google Drive while context lives in the OS.

- Click **+ Add Drive link** to link Brand Kits, Logos, Font files, or Reference folders.
- Categorize as: **Brand Asset**, **Raw Footage**, **Final Output**, **Client Asset**, **Reference**.
- Toggle **Client visible** to control external visibility.

8.3 Studio Messages / Chat ([/chat](#))

- Internal Threads:** For agency staff only (e.g. video editor & videographer alignment).
- Client Threads:** For direct conversation with client stakeholders without sharing internal banter.
- Link any chat conversation directly to a specific **CNT-XXXX** content item.

8.4 Analytics, CSV Export & Client Reports ([/reports](#))

Exporting Data & Generating Client Deliverables

REPORTS ENGINE

- Export CSV:** Click **Export CSV** to download raw reach, views, likes, comments, and shares across all client posts.
- Create Client Report:** Click **+ Create report**. Fill out client name, date range, performance summary narrative, and attach a Google Drive slide link. Check **Share this report with the client** to push it directly into the client portal!

9. Master Action-to-Output Cheat Sheet

REFERENCE

A quick-reference lookup for every clickable action across Agency OS.

ACTION NAME	BUTTON TEXT	WHO CAN CLICK	PRE-REQUISITE	RESULTING STATUS & OUTPUT
Start Script	Start script ↗	Writer / SMM / Admin	Item in PLANNING	Status → SCRIPT_WRITING . Writer task starts.
Submit Script	Submit script for review ↗	Script Writer	Hook & Body filled	Status → INTERNAL_SCRIPT_REVIEW . SMM gets •1.
Approve Script (Int)	Approve	SMM / Super Admin	Script in internal review	Status → CLIENT_SCRIPT_REVIEW . Client gets •1.
Approve Script (Client)	Approve	Client User	Script in client review	Status → READY_FOR_SHOOT or EDITING . Production starts.
Confirm Shoot	Confirm shoot schedule ↗	Videographer / SMM	Shoot plan saved	Status → SHOOT_SCHEDULED . Call sheet locked.
Complete Shoot	Complete shoot ↗	Videographer / SMM	Raw footage Drive URL	Status → EDITING . Raw link saved. Editor assigned.
Add Version	+ Add version	Video Editor / Designer	Status is EDITING	Creates V1 , V2 record. Tagged Internal .
Submit Edit	Submit edit for review ↗	Video Editor / Designer	At least 1 version exists	Status → INTERNAL_EDIT_REVIEW . SMM gets •1.
Approve Edit (Int)	Approve	SMM / Super Admin	Cut in internal review	Status → CLIENT_REVIEW . Version tagged Shared with client .
Approve Edit (Client)	Approve	Client User	Cut in client review	Status → FINAL_CLIENT_APPROVED . Publishing record created.
Mark Ready to Publish	Mark ready to publish ↗	SMM / Super Admin	Client approved	Status → READY_TO_PUBLISH . Item appears in Publishing hub.
Copy Caption	📄 Copy caption & hashtags	Any staff member	Publishing tab	Copies formatted caption + hashtags to OS clipboard.
Mark Published	Mark published ↗	SMM / Super Admin	Live post URL entered	Status → PUBLISHED . Post moves to Published tab. Metrics unlock.
Record Metrics	Save metrics	SMM / Super Admin	Status is PUBLISHED	Metrics saved. Reports dashboard & charts update instantly.

Operational Standard: Following these exact clickable steps guarantees 100% on-time, error-free, client-approved execution across all agency campaigns.
